Sir:

The Examiner's attention is directed to the patent references which are listed on the attached Form PTO-1449 filed concurrently herewith.

These references relate to sport shoe cleat structures which were located in connection with a search for litigation purposes. None of the references discloses a cleat having a plurality of shaped teeth projecting around the perimeter of a main body member with each tooth having an outward angulation to provide lateral stability and traction through a golf swing, for example.

Respectfully submitted,

Jim Zegeer, Reg. No. 18,957
Attorney for Applicants
